

The level electrode KS1 with an individual print and different connection cable lengths for use in conjunction with a level relay for:

- conductive liquids
- limited space

Technical data

Weight	48 g (without cable)
Housing quality/-color	Polypropylen (PP), blue
Cable quality/-color	H07RN-F 1x1,5mm ² , black
Electrode material	stainless steel (AISI 316L)
Contact	capacitive
Permissible temperature range	0°C ... 80°C
Dimensions (D x H)	approx. 22mm x 80mm
